

Course Title

Management of Lifting Operations (BS7121 – Appointed Persons)

Course Introduction

This course is aimed at people who will be responsible for the Planning of Lifting Operations using mobile cranes as stated in 'BS7121 – Safe Use of Cranes' and is based on the assumption that each delegate has some basic experience in cranes and slinging. On that basis the course has been compiled to give each candidate the necessary knowledge and understanding of his duties to ensure, so far as is reasonably practicable, the selection and the safe and proper use of mobile cranes and related lifting equipment. PUWER 1998 (9) requires all people who are involved with such equipment, to receive adequate training to supervise / manage its safe use.

Who Should Attend

Any person who is responsible for planning and organising lifting operations within the scope of any working activity they are employed to carry out.

Course Content

- Current Legislation - (HASAWA 1974 / PUWER 1998 / LOLER 1998)
